

UWAIS WATKINS

Dubai, UAE | [linkedin.com/in/uwais-watkins](https://www.linkedin.com/in/uwais-watkins) | github.com/waisyrr

PROFESSIONAL SUMMARY

Versatile and results-driven IT Professional with a B.S. in Information Technology and 8+ industry certifications (CompTIA Sec+/Net+/A+, AWS, ITIL). Adept at bridging the gap between frontline technical support, systems administration, and advanced cloud infrastructure. Proven expertise in delivering Tier 1/Tier 2 operational support, accelerating incident resolution, and maintaining robust network security. Complemented by hands-on experience designing AWS serverless architectures and automating deployments via Terraform. Highly committed to optimizing system reliability, performance, and operational workflows across diverse, fast-paced IT environments.

CORE COMPETENCIES & TECHNICAL SKILLS

IT Support & Ops:	Tier 1 & Tier 2 Support, ITIL Framework, Incident Resolution, Hardware/Software Troubleshooting, POS Systems, Active Directory
Systems & Infra:	Windows Server, Linux Distributions, System Administration, Provisioning, Access Control
Networking & Sec:	TCP/IP, DNS, DHCP, Routing & Switching, VPNs, Endpoint Security, Network Security
Cloud & DevOps:	AWS (S3, EC2, Lambda, DynamoDB, IAM), Terraform (IaC), Git/GitHub Actions, Python

PROFESSIONAL EXPERIENCE

IT Support & Systems Specialist

2025 – 2026

Pizza Sabbioni – Dubai, UAE

- Delivered comprehensive Tier 1 and Tier 2 technical support for high-volume operational environments, ensuring maximum availability for POS terminals, payment gateways, and real-time networking systems.
- Diagnosed and resolved critical hardware, OS, and network connectivity incidents, significantly minimizing system downtime and safeguarding business-critical operations.
- Managed the end-to-end incident lifecycle in strict alignment with ITIL best practices, rapidly escalating complex technical anomalies and collaborating with cross-functional vendor support teams.
- Audited system logs and maintained strict data integrity across integrated cloud and local platforms, systematically troubleshooting and resolving data synchronization faults.

TECHNICAL PROJECTS

Cloud Infrastructure & Serverless Architecture Deployment

github.com/waisyrr/cloud-resume | AWS, Terraform, CI/CD, Python

- Architected and deployed a highly available, production-grade serverless application leveraging AWS Lambda, API Gateway, DynamoDB, CloudFront, and S3.
- Automated 100% of infrastructure provisioning using Terraform, adhering to Infrastructure-as-Code (IaC) principles to ensure scalability, environment repeatability, and rapid deployment.
- Engineered a robust CI/CD pipeline via GitHub Actions to automate code integration, regression testing, dynamic deployment, and network cache invalidation.
- Enforced stringent security postures by implementing IAM least-privilege access policies, HTTPS encryption, and AWS Well-Architected Framework methodologies.

CERTIFICATIONS

- **CompTIA:** Security+ | Network+ | A+ | Project+ | Secure Infrastructure Specialist (CSIS) | IT Operations Specialist (CIOS)
- **Amazon Web Services (AWS):** Certified Cloud Practitioner
- **IT Service & Systems:** ITIL 4 Foundation | LPI Linux Essentials

EDUCATION

Bachelor of Science in Information Technology

2026

Western Governors University (WGU)

Relevant Coursework: Cloud Foundations, Network & Security Applications, IT Project Management, Information Systems Management, Linux Foundations, Data Management, Web Development, Scripting.
